**LIBRARY IMPACT STATEMENT
LIBRARIAN'S ASSESSMENT**

Course: EEC 497 *Internship in Environmental Economics*

Department, College: Environmental and Natural Resource Economics, College of the
Environment and Life Sciences

Faculty Member: Prof. Emi Uchida

Date returned to Faculty: 15 November 2011

Librarian Completing Assessment: Prof. Andrée J. Rathemacher

An examination of the Library Questionnaire for Faculty and the proposed syllabus for EEC 497 *Internship in Environmental Economics* indicates that some students enrolled in the course might need to produce literature reviews while completing their internships, and that “in such cases, journals in the field of environmental economics will be helpful.” Professor Uchida provides a list of seventeen journals, all of which are fully accessible to the URI community.

Based on this information, I conclude that the University Libraries can support the teaching of EEC 497 *Internship in Environmental Economics* with current library resources. In my role as Subject Selector and liaison to the Department of Environmental and Natural Resource Economics, I support the addition of this course without reservation.

Andrée J. Rathemacher
Professor
Head of Acquisitions, University Libraries
Subject Selector for the Department of Environmental and Natural Resource Economics
